- “Regional effects of federal economic policy changes” was floated as a topic for a webinar between the Annual Meeting and the Fall Forum, or maybe for the Fall Forum after things have had time to settle out some.
- The committee was informed that Brittany Davis will be leaving Naturally Lewis. The opening will be included in the next NCA e-news.
- The new Statewide Director of Economic Development at National Grid is Katie Newcombe and Joe will look for ways to get her involved with the NCA.
